

Carlo DIFLACO – Lyons Candidate

Say hello to Lyons Primary SFF Candidate Carlo Difalco, who is also SFF TAS deputy leader.

Carlo said “I was born and raised in Hobart. I attended a local school where I learned the importance of critical reasoning and considering both sides of an issue.

I spent 43 years working in the outside workforce of a local council, so I am aware of the burdens faced by low-paid battlers. Additionally, I have spent all those years working outdoors and can attest that, during that time, the climate has not changed.

The major parties acknowledge the current challenges facing Tasmania. The only way to navigate out of this situation is to promote entrepreneurship and reduce the green and red tape that stifles wealth creation. Without a robust taxation base, there will not

be enough funding for essential services at the level demanded by the public. This situation will worsen if we continue on the same path as Europe.

I mention Europe because similar impractical ideas that have taken hold there are making their way here. In Europe, some of the most successful and innovative farmers are being shut down under the guise of "saving the planet," without any replacement capacity.

This has resulted in widespread civil unrest, prompting some countries to backtrack. This trend is emerging here; watch this space”
